

# **ULTIMAX BAZOOKA**

## **SINGLE BAND ANTENNA.**

**Thank you for your purchase of the ULTIMAX HF bazooka antenna.**

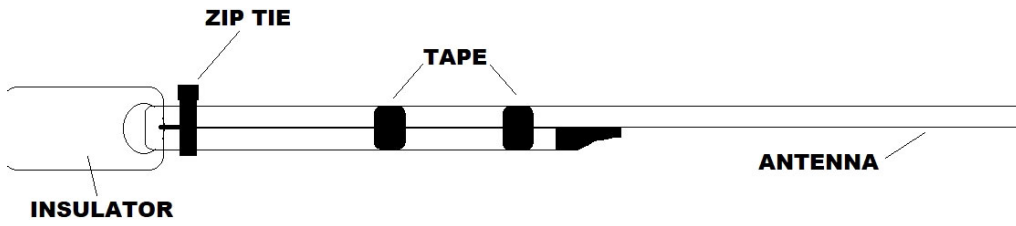

**To make the antenna resonate at your prefer segment of the band you wish to operate, simply fold the ends 6" inches at the time until you shift the resonant point to where your prefer , once accomplish just pull on the zip close to the insulator and for the remaining hanging coax just tape to keep parallel to the downward segment , ( don't use more ties besides the one already use).**

**Used ONLY RG-213, RG-8/U or RG-8X**

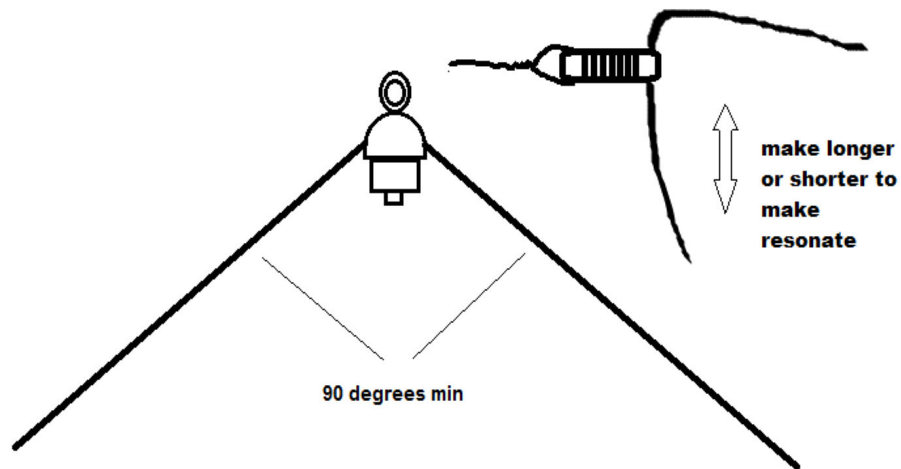

**(Don't used coax with aluminum foil in the shield.)**

**\*Keep Apex to minimun 90 degrees**

**\*NO CUTTING OR TRIMMING IS RECOMMENDED**

**FOLD EXAMPLE:**
